## DESCENDANTS OF G. FENTON & LETTIE TOBLER WHITNEY

This is a list of the descendants of George Fenton and Lettie Tobler Whitney at the time of this printing. We are sorry if the list is inaccurate or incomplete and would appreciate it if you would send in any corrections or additions. The record changes quickly because of the large number to which we have grown. One of Grandpa Whitney's last projects was keeping track of all the new additions to the family and seeing that they were recorded in the genealogy. This was a very important work to him because he and Grandma considered their family their most important treasure. To honor his work and to keep an accurate record, we are asking you to report all births, deaths, marriages, baptisms, etc. to one of the e-mail addresses listed below. If you wish a more complete copy of the record, you can also request it. Thank you for helping to maintain this priceless record.

# INDEX

## Index of Documents

**W**e have amazing documents that have survived many, many years. We have a copy of the marriage certificate of Luke and Christiana Syphus who were married on December 25, 1851 in England.

Also, we have a letter written by Mary Syphus to her future daughter-in-law, Christiana Long Syphus, on October 30, 1850. This letter must have traveled with Luke and Christiana as they sailed from England to Australia. Then it came with them from Australia to California where it survived three fires on the ship as well as running aground in Tahiti.

It traveled to San Bernadino. Then when they had to leave suddenly, it came with them. It somehow survived the “Big Flood” in Santa Clara and numerous moves as they had to leave their homes because of hostile Indians and other moves.

Here is an index to some of the terrific documents that we have:
